Hours:		Inspected by:

Check all components that apply. If the component needs servicing or repair, indicate it with an "X" and make the appropriate notes in the section provided at the bottom of this form.

5 = Excellent		4 = Very Good		3 = Good		2 = Fair		1 = Poor	
Walkaround					Operational Safety				
	Paint / Seat / Decals								Manuals, start – stop
	Structural / Welds / Cracks								Engine, idle and high rpm
	Wheels, lugs, springs, bearings								Emergency stop, Murphy shutdown
	Tracks, tires								Operator presence, neutral switches
	Belts, chains, shields								Indicator lights / alarms
	Knives, hammers, outters, bases, pockets								Gauges; volt, amp, tach, fuel, oil pressure, temp
	Rope, tiedowns								Brakes, clutch, restraints; condition/adj.
	Hitch, electric plugs, lights, market tail, etc...								Strike alert test
									All functions, prime mover, attachments
Hydraulics					Engine				
	Clean / leaks								Clean / leaks
	Oil level, condition, filter								Oil level, condition, filter
	Oil sample								Oil sample
	Filter								Fan belt, air, flow
	Hoses, fittings, cylinder, quick connects								Coolant level, condition, protection level
	Controls: tractor and attachments								Fuel level, condition, filter
	Attachments: pump and motor (chrg pressure/main relief)								Oil cooler
	Ground drive pump and motor								Air filter, hoses, clamps, indicator
	Implement pump and circuit								Engine mounts
									Exhaust system
Electrical					Attachments				
	Ignition switch / master switch								Chain condition
	Battery cables and terminals								Breakout system
	Battery condition, state of charge								Stakedown system
	Alternator: output, noise								Rotation box chain, guides
	Starter and relays								Drive chuck, thrust chain, rollers
	Wire harness and routing								Pump: packing, press
	Meters, fuses, breakers								Digging chain, teeth, sprockets
									Boom Pivot, head shaft
									Gearboxes
Driveline & Suspension					Lubrication				
	Pump drive box, transmission								Clean, decal charts
	Drive shafts, differentials and planets								All fluids: level and condition
	Drop box, lack shaft								Sample
	Springs, mount bolts								Grease: prime mover and all attachments zerks
	Brake linkage								Oil chains
	Steer linkage								
	Track frame and rollers								

Notes / Remarks:

NOTE: This inspection is provided as a service to our customers. It's purpose is to assist the potential buyer in identifying obvious mechanical conditions prior to purchase. It does not constitute a warranty of any kind. This basic visual inspection is no substitute for a comprehensive full-mechanical evaluation, and the potential buyer must understand that the equipment is sold on an as-is, where-is basis and the buyer should take every measure possible to establish the condition of the machine prior to purchase.
